

HONEYWELL GUIDED WORK SOLUTIONS FOR THE DISTRIBUTION CENTER

Seamlessly integrated to enable hands-free, voice-guided workflows such as picking, receiving, replenishment, and put-away.

Increase Productivity up to 35%

Decrease Error Rate up to 50%

Reduce Safety Incident Rate up to 20%

Cut Training Time up to 50%

Turnkey Solution

Bundle is seamlessly integrated to voice-enable pick lists, stock transfers, and replenishments.

Android Application

Enables use of multiple interfaces including voice, scanning, and keypad on any compatible Android™ device along with your other applications.

Hands-Free and Eyes-Free

Free your employees from being reliant on paper and screens so they can focus solely on their tasks, resulting in increased productivity, accuracy, and safety.

Fast Deployment

Easy integration allows quick deployment so you can immediately take advantage of voice technology on Android devices.

Guided Work Solutions by the Numbers

Increased Productivity

Up to 35% improvement from legacy systems, allowing workers' hands to always be free to pick products and complete tasks.

Improved Accuracy

With eyes always focused on the job, quickly find products in the correct location and reduce errors up to 50%.

Works Across Distribution Center Functions

Automated picking, receiving, put-away, cycle counting, and more results in easy worker training across functions.

Integrated Bundle Solution

Simple bundle offering includes hardware, headset, application, and licensing for easy purchase, deployment, and support.

Enhanced Worker Satisfaction and Safety

Heightened worker productivity with voice guidance makes workers' jobs more intuitive and focused, resulting in less accidents.
