

THE POWER OF **CONNECTED**

CX80 Vehicle Power Adapter

Model CX80-SN-VPA

Quick Start Guide

Out of the Box

Make sure that your shipping box contains these items:

- CX80 Vehicle Power Adapter (CX80-SN-VPA)
- Regulatory compliance sheet

If any of these items are missing or appear damaged, contact your Customer Account Representative. Keep the original packaging in the event that you need to return the Vehicle Power Adapter (VPA) for service or if you want to store the adapter while not in use.

Caution: We recommend the use of Honeywell accessories and power adapters. Use of any non-Honeywell accessories or power adapters may cause damage not covered by the warranty.

Mise en garde : Il est recommandé d'utiliser les périphériques, les cordons d'alimentation et les adaptateurs secteur conçus par Honeywell. L'utilisation de tout périphérique, cordon d'alimentation ou adaptateur secteur d'une autre marque est susceptible de provoquer des dommages non couverts par la garantie.

Connect Power

The VPA supplies 2 A to the CX80. The operating temperature is -20 °C to 50 °C (-4 °F to 122 °F).

1. Insert the CX80 into the VPA cup.
2. Plug the VPA connector into the vehicle power port.

Charge the CX80

Caution: Make sure that all components are dry prior to using the computers and batteries with accessories. Using wet components may cause damage not covered by the warranty.

Mise en garde : Assurez-vous que tous les composants sont secs avant de connecter les terminaux/batteries à des périphériques. L'insertion de composants humides risque de provoquer des dommages non couverts par la garantie.

Insert the CX80 with battery inserted into the VPA for at least 4 hours for a full charge.
