Honeywell

Vocollect Talkman A730

Mobile Device

Today's warehouses and distribution centres require solutions that optimise their operations with business flexibility, while maximising existing technology investments. That is why Honeywell Vocollect solutions are the performance choice for more than one million workers around the world each day. Empowering mobile workers to operate hands-free with voice technology has proven to offer positive worker productivity and business value.

The Vocollect Talkman A730 mobile device bridges the long-standing gap between voice and scanning. Honeywell is proud to be the first organisation in the world to have designed an ergonomic solution that optimises voice and scanning in a single mobile device. For workers that occasionally require a scanner for tasks such as order induction or serial and lot number capture, you will be hard-pressed to find a more elegant and ergonomic solution.

The Talkman A730 contains an integrated short-range scanner, which enables workers to use both voice direction and scanning to fully optimise processes in an ergonomic, wearable form factor that eliminates the need to hand carry a bulky device. It is small and easy to unholster for occasional scanning. Your workers can even scan hands-free by using a voice command to activate the scanner when moving boxes with labels past the scan target with the A730 positioned on the worker's belt.

Designed to deliver consistent performance and ease of use in the most challenging environments, the imager is equipped with a red scanning line and highly visible pointer to facilitate successful scans in darkness or full sunlight. Its corner framers make image capture and multi-code reading intuitive and comfortable. Transitioning to the A730 is easy; the device is simple for employees to learn and use.

Vocollect A730 with
Standard Battery

Vocollect SRX2 Headset

The Vocollect SRX2 wireless headset sets an entirely new standard for how workers operate in the distribution centre. It greatly enhances the worker experience by providing the most comfortable and ergonomic wireless headset option available. The SRX2 wireless headset leverages Vocollect SoundSense™ voice recognition technology, offering unmatched accuracy. Using Vocollect TouchConnect™, workers can quickly pair their Vocollect SRX2 wireless headsets and Talkman A700 devices with a simple device-to-device touch, thereby reducing shift start-up procedures from minutes to seconds. The innovative, shareable component design enables shared use of electronics across multiple shifts, reducing both the up-front and the ongoing cost of ownership.

When used together, the Vocollect A730 and Vocollect SRX2 provide the industry's premier worker experience and enable your team to take productivity to the next level. The A730 and SRX2 solution is just another example of how Honeywell can help you run a better business with voice.

Vocollect Talkman A730 Technical Specifications

Vocollect Talkman A730	
Endcap Description	Short Range 2D Imager Endcap
Best Used for Environments Requiring	Occasional short range scanning, wireless headsets and peripherals
Vocollect Voice Software	
Device Software	Vocollect VoiceCatalyst 2.0 + / Vocollect VoiceClient 3.9 +
Device Management Software	Vocollect VoiceConsole 5.0 +
Voice Processes	VoiceApplications / VoiceTasks
Speech Recognizer	Vocollect Blue Streak with SoundSense
Operating System	Microsoft® Windows CE® 7
Vocollect Talkman Mobile Devices	
Operating Temperature	-20° to 50°C (-8° to 122° F)
Storage Temperature	-40° to 70°C (-40° to 158° F)
Drop Tested	24 drops at 1.5m (5') to steel and 12 drops at 1.8m (6') to steel
Vibration	Meets MIL-STD-810F method 514.6
Battery Indication	Yes
Humidity	100% condensing
Rain/Dust Sealing	IP67
Radio	
WiFi	802.11a/b/g/n
Bluetooth Version	Class 2 Bluetooth v2.1 + EDR
NFC/Vocollect TouchConnect	Yes with Vocollect VoiceCatalyst
Vocollect Headset Support	
Configurations Supported	Wireless (Vocollect SRX & Vocollect SRX2)
Weight	
Terminal	186g (6.7 oz)
With Standard Battery	269g (9.5 oz)
With High Capacity Battery	320g (11.3 oz)
Size	
Standard L X H X W	150.9mm x 64.1mm x 42.1mm (5.9" x 2.5" x 1.7")

⚠ CAUTION
LASER LIGHT - DO NOT STARE INTO BEAM
CLASS 2 LASER PRODUCT 1mW 630-680nm
IEC60825-1/A2: 2007 EN60825-1/A2: 2008
Complies with 21 CFR, Part 1040
