Honeywell’s Duratran™ KS Film offers excellent performance in a wide range of challenging tracking applications. This label readily endures outdoor exposure to rain, snow, and ultraviolet light for up to 6 months.

**APPLICATIONS**
- Asset labels
- Lawn and garden equipment
- Product labeling
- Rack/Bin/Shelf labeling
- Returnable totes
- Rework tracking
- Wire harness labeling

**BETTER TOGETHER**
Co-engineered printers and supplies ensure consistent print quality and performance

Thermal transfer printability allows on-demand generation of durable labels, eliminating high cost and inventory obsolescence associated with preprinting

When Honeywell supplies are used exclusively with Honeywell printers, the Free Printhead Replacement Program offers significant cost savings

**FEATURES AND BENEFITS | PERMANENT ADHESIVE**
- Outdoor 6+ months
- Min. App. Temp. 25°F
- Service Temp. -75°F to 200°F
- Medium Chemical Resistance
- Medium Abrasion Resistance
## DURATRAN KS FILM PORTFOLIO
