Subject: EU REACH SVHC in Honeywell Products

Dear Customer,

For product REACH SVHC enquiries please submit requests to the mail box below stating the Honeywell product part number

ProductStewardship.SPSPP@Honeywell.com

In June 2007, the European Union Regulation (EC) 1907/2006 concerning the Registration, Evaluation, Authorisation and Restriction of Chemicals (REACH) entered into force. This Regulation establishes specific duties and obligations on companies engaged in commerce with the European Union (EU) member states that manufacture or import substances on their own, in preparations, or in articles.

As part of our ongoing compliance commitment, we have undertaken a process to identify which, if any, Substances of Very High Concern (SVHCs), (meeting the criteria set out in Article 57 of REACH and included on the REACH "Candidate List" for further regulation), are contained within the product we supply to you and in what concentrations.

In September 2015, The European Court of Justice provided their ruling with respect to an Article made up of many Articles and how information must be disclosed. The ruling can be found here; <https://curia.europa.eu/jcms/upload/docs/application/pdf/2015-09/cp150100en.pdf>

As part of our SVHC identification process we have:

- Reviewed internal/publicly available engineering data in relation to the presence of SVHCs in our products or any of their component parts;
- Reviewed available safety data sheets for our input materials;
- Communicated with our suppliers to exclude/confirm the presence of SVHCs in component parts of our products.

Our declarations on REACH refer to the latest SVHC candidate listing at the time the product was shipped. The current SVHC Candidate List can be found here: <http://echa.europa.eu/web/guest/candidate-list-table>
