Out of the Box
Make sure that your shipping box contains these items:
- CT50 ChargeBase (CT50-CB) or NetBase (CT50-NB)
- Power supply
- Power cord
- Quick start guide and regulatory compliance sheet

If any of these items are missing or appear damaged, contact your Customer Account Representative. Keep the original packaging in the event that you need to return the ChargeBase or NetBase for service or if you want to store the charger while not in use.

Connect Power
Use only a UL Listed power supply which has been qualified by Honeywell with an output rated at 12 V / 7 A. The power supply input rating is 90-264 VAC, 50/60 Hz. The operating temperature is -20 °C to 50 °C (A-F to 122 °F).

1. Plug the power cord into the power supply.
2. Plug the power supply cable into the power connector on the back of the charger.
3. Plug the power cord into a standard wall outlet.

Mount the ChargeBase or NetBase
You can mount the charger on a flat, horizontal surface such as a desktop or workbench with an optional DIN rail.

Mounting hardware required:
- DIN rail
- 3/16-inch diameter x 5.8-inch long pan head screw
- 1/2-inch OD x 7/32-inch ID x 3/64-inch thick washer
- 3/16-inch diameter nut

1. Slide the DIN rail into the slot on the bottom of the ChargeBase or NetBase.
2. Secure the DIN rail to the flat surface with the hardware.

Agency Information

Connect the equipment into an outlet on a circuit different from that to which the receiver is connected.
Consult the dealer or an experienced radio or television technician for additional suggestions. Honeywell is not responsible for any radio or television interference caused by unauthorized modifications to this equipment or the substitution or attachment of connecting cables and equipment other than those specified by Honeywell.

The correction is the responsibility of the user.

Charge the Battery Pack
Caution: Make sure that all components are dry prior to using the computer and batteries with accessories. Using wet components may cause damage not covered by the warranty.

Mise en garde : Assurez-vous que tous les composants sont secs avant de connecter les terminaux/batteries à des périphériques. L’insertion de composants humides risque de provoquer des dommages non couverts par la garantie.

Insert one to four CT50s with battery packs installed into the ChargeBase or NetBase.

Europe
The CE marking indicates compliance to 2004/108/EC EMC Directive with Standards EN55022 CLASS B, EN55024, EN61000-3-2, EN61000-3-3, 2011/65/EU ROHS (Recast). In addition, complies to 2006/95/EC Low Voltage Directive, when shipped with recommended power supply.
Honeywell International Inc. shall not be liable for use of our product with equipment other than those specified by Honeywell.

Industry Canada IECES-003
This Class B digital apparatus complies with Canadian IECES-003. Operation is subject to the following conditions:
1. This device may not cause harmful interference.
2. This device must accept any interference, including interference that may cause undesired operation.

Conformité à la réglementation canadienne
Cet appareil numérique de la Classe B est conforme à la norme NMB-003 du Canada. Son fonctionnement est assujetti aux conditions suivantes : 1. Cet appareil ne doit pas causer de brouillage préjudiciable. 2. Cet appareil doit pouvoir accepter tout brouillage reçu, y compris le brouillage pouvant causer un fonctionnement indésirable.

Honeywell ne sera pas tenu responsable de l’utilisation de ses produit avec de l’équipement qui ne porte pas la marque CE et n’est pas conforme à la Directive sur les basses tensions.
Utiliser uniquement des câbles de données blindés avec ce système. L’appareil a été testé avec des câbles de moins de 3 mètres. Les câbles de longueur supérieure à 3 mètres peuvent ne pas satisfaire à la performance de la classe B.
Certifié CB Classe CEI 60950-1, deuxième édition.
Reportez-vous à la page www.honeywellaidc.com/environmental pour obtenir des renseignements concernant les directives RoHS/REACH/WEEE.
2011/65/EU ROHS (Recast). In addition, if it is provided with the power supply, use only shielded data cables with this system. This unit was tested with cables under 3 meters in length. Cables longer than 3 meters may not meet the performance requirements of class B.

Honeywell cannot be held responsible for any consequences that may arise as a result of using cables of more than 3 meters in length. It is advisable that only shielded cables of no more than 3 meters in length be used with this device.

Certified to the norm CE 60950-1 second edition (schemé OC).

Report-visit us at www.honeywellaidc.com/environmental for obtaining the informations on the directives RoHS/REACH/WEEE.

EMC and the standards EN55022 CLASS B, EN55024, EN61000-3-2, and EN61000-3-3. 2011/65/EU ROHS (Recast). Moreover, comply with the Directive 2006/95/EC on the electrical equipment for use with certain voltage limits.
