Out of the Box
Make sure that your shipping box contains these items:
- CT50 Vehicle Dock (CT50-MB)
- Power supply
- Power cord
- Quick start guide and regulatory compliance sheet

If any of these items are missing or appear damaged, contact your Customer Account Representative. Keep the original packaging in the event that you need to return the Vehicle Dock for service or if you want to store the charger while not in use.

Caution: We recommend the use of Honeywell accessories and power adapters. Use of any non-Honeywell accessories or power adapters may cause damage not covered by the warranty.

Mise en garde : Il est recommandé d’utiliser les périphériques, les cordons d’alimentation et les adaptateurs sectorc conçus par Honeywell. L’utilisation de tout périphérique, cordon d’alimentation ou adaptateur secteur d’une autre marque est susceptible de provoquer des dommages non couverts par la garantie.

Make sure that your shipping box contains these items:
- Connect the vehicle dock power cable to the power adapter cable and screw the two cables together.
- Plug the power adapter into the power port on the vehicle.
- (Optional) Connect a device to the vehicle dock through the USB connector.

About the Volume Control
The vehicle dock has a built-in volume control to enable you to hear the CT50 in noisy environments.
- Rotate the volume control counter-clockwise to raise the volume.
- Rotate the volume control clockwise to lower the volume.

Mount the Vehicle Dock
You can mount the vehicle dock to your vehicle with a RAM mount.
Mounting hardware required:
- RAM mount
- Appropriate screws and nuts

Connect Power
The vehicle that you connect the Vehicle Dock to should supply 2 A to the Holding bay CT50. The operating temperature is -20 °C to 50 °C (4 °F to 122 °F).

MT

Connect the equipment into an outlet on a circuit different from that to which the receiver is connected.
Consult the dealer or an experienced radio or television technician for additional suggestions. The user may find the following booklet helpful: “Something About Interference.” This is available at FCC local regional offices. Honeywell is not responsible for any radio or television interference caused by unauthorized modifications of this equipment or the substitution or attachment of connecting cables and equipment other than those specified by Honeywell. The correction is the responsibility of the user.

Use only shielded data cables with this system. This unit has been tested and found to comply with the limits for a class B digital device pursuant to part 15 of the FCC Rules. These limits are designed to provide reasonable protection against harmful interference in a residential installation. This equipment generates, uses, and can radiate radio frequency energy and, if not installed and used in accordance with the instructions, may cause harmful interference to radio communications. However, there is no guarantee that interference will not occur in a particular installation. If this equipment does cause harmful interference to radio or television reception, which can be determined by turning the equipment off and on, the user is encouraged to try to correct the interference by one or more of the following measures:
- Relocate or relocate the receiving antenna.
- Increase the separation between the equipment and receiver.
- Connect the equipment into an outlet on a circuit different from that to which the receiver is connected.
- Consult the dealer or an experienced radio or television technician for help.

Note: This class B digital apparatus meets all requirements of the Canadian Interference-Causing Equipment Regulations.

Industry Canada ICES-003
This Class B digital apparatus complies with Canadian ICES-003. Operation is subject to the following conditions:
1. This device may not cause harmful interference.
2. This device must accept any interference received, including interference that may cause undesired operation.

Making the CT50
Caution: Make sure that all components are dry prior to using the computers and batteries with accessories. Using wet components may cause damage not covered by the warranty.

Mise en garde : Assurez-vous que tous les composants sont secs avant de connecter les terminaux/batteries à des périphériques. L’insertion de composants humides risque de provoquer des dommages non couverts par la garantie.

- Insert the CT50 with battery inserted into the vehicle dock until the latches click.
- Charge the CT50
- Connect Power
- About the Volume Control
- Mount the Vehicle Dock
- Connect Power
La marquage CE apposé sur ce dispositif atteste qu’il est conforme à la Directive CEM 2004/108/CE et aux normes EN55022 CLASSE B, EN55024, EN61000-3-2, EN61000-3-3, 2011/65/EU ROHS (Recast). En outre, s’il est fourni avec l’alimentation recommandée, ce dispositif est conforme à la Directive « basse tension » 2006/95/CE.

Certifié CE IEC 60950-1, deuxième édition.
