Stand Installation Guide

00-02497 Rev B
December 2009
FREE – STANDING INSTALLATION

For Kit #46-46128:

Step 1
Slide the apron (PN 50-50440) over the stand (PN 36-00454).

Step 2
Position the stand so it sits under the tab on the apron. Then secure the apron to the stand using the M3 screws (PN 18-18670) and the #5 washers (PN 18-18671) provided.

HARD MOUNT INSTALLATION

Step 4
Remove the logo plate on the stand by gently using an exacto knife to release the plate hook.

Step 5
Position the stand over the anchor/base assembly.

Step 6
Secure the stand to the base assembly by installing and tightening the M3 hex head screw (PN 18-18672) under the logo plate as shown.

For Kit #46-46351:

Step 1
Use the template provided to drill four #39 pilot holes in the counter top.

Step 2
Secure the base (PN 36-36080) to the countertop with the four #8 wood screws (PN 18-18057).

For Kit #46-46128, #46-46351, and MS951 Stand Replacements:

Step 3
Screw the stand anchor (PN 50-50449) onto the base assembly until it sits flush.

Step 7
Snap the logo plate back into place.
