Honeywell
THE POWER OF CONNECTED

A-Class Take-Up Hub Replacement
Assembly Instructions

Out of the Box
Verify your carton contains the following items:
• Hub Assembly, A-Class 1 inch Take-Up
• 3 - M4x9 Socket Head Cap Screws

Tools Required
3mm hex wrench

Install the Hub Assembly
1. Turn off the printer and disconnect the power cord and communications cable.
2. Open the Access Cover and remove any installed media from the printer.

3. Remove the 4 inch Ribbon Take-Up Hub by removing the three screws using a 3mm hex wrench.

4. Insert the 1 inch Ribbon Take-Up Hub and secure with the three screws using a 3mm hex wrench.

   **Note:** Slightly rotate the Hub to make sure the gear on the hub engage with the gear on the printer.

5. Close the Access Cover.
