Thor VM2
Vehicle-Mount Computer

Solidifying Honeywell’s position as the leader in vehicle-mount computing, the Thor VM2 builds on the best-in-class Thor VM1 that was created specifically to address the unique challenges of supply chain applications.

Ideally suitable for warehouse, port and yard process automation, the Thor VM2 introduces an additional form factor option granting greater flexibility which is emphasized by its 9.7” XGA display, programmable multi-function keys, and WLAN and WWAN connectivity. Available with Microsoft Windows CE 6.0, Windows 7 Pro, Windows Embedded Standard 7 and Windows Embedded Standard 2009 operating systems and compatible with many industry standard terminal emulation and web browser applications including the popular Honeywell RFTerm™ TE, the Thor VM2 is built for simple and easy application development and system integration.

The same key features that have made the Thor VM1 an overwhelming success are in VM2. Delivering laptop-like simplicity, the Smart Dock capability allows for the separation of the computer from the power supply empowering users to seamlessly migrate from vehicle to vehicle and reducing the required number of computers. Further, the field-replaceable front panel enables single-tool touch screen repairs, which significantly minimizes downtime and maintenance costs resulting from wear and tear at the most common breaking point. Lastly, the power management settings that accompany the ignition control feature virtually eliminate dead vehicle batteries and the subsequent productivity losses.

The supply chain industry requires workers to function in rough conditions where unique challenges exist. As a result, it is important to incorporate the highest efficiency while maintaining low cost. With the unique features in Thor VM2, businesses are able to address and respond to these versatile issues as they occur, dramatically improving operations.

Features

- **Smart Dock**: Enables mounting and removal in seconds like a laptop dock but with the ruggedness and sealing required for industrial applications; maximizes efficiency by dynamically shifting workers and computers as the workload changes, while minimizing maintenance cost by enabling a computer to be shifted from one vehicle to another in 1/6 the standard time
- **Ignition Control**: Eliminates the maintenance expense and lost productivity caused by a dead vehicle battery; unit can be configured to automatically go into standby or hibernate at a selectable time after the ignition switch is turned off, saving time for associates while eliminating a point of concern for warehouse management
- **Field-Replaceable Front Panel**: Reduces capital and maintenance cost by integrating the two most wear and abuse prone components, the keyboard and touchscreen, into a user-replaceable part; reduces capital costs by substituting spare front panels for spare computers
Thor VM2 Technical Specifications

**Mechanical**

**Dimensions**
Computer: 10.6” x 8.4” x 2.1 (268 x 214 x 53); Dock: 7.1” x 6.1” x 2.5” (180 x155 x 64mm)

**Weight**
Computer: 4.8 lb (2.2 kg); Dock: 3.2 lb (1.2 kg)

**Operating Temperature**
-4° to +122°F (-20° to +50°C)

**Storage Temperature**
-4° to +122°F (-20° to +50°C)

**Humidity**
5% to 95% non-condensing

**Environmental Sealing**
Independently certified to meet IP66 standards for moisture and particle resistance

**ESD**
EN 55024:1998 (enhanced ESD to 8kV direct & 15kV air)

**Vibration**
MIL-STD-810F, composite wheeled vehicles

**Shock**
SAE-J1455

**System Architecture**

**Processor**
Intel® Atom Z530 1.6GHz

**Operating System**
Microsoft® Windows® CE 6.0, Microsoft® Windows® 7 Pro, Microsoft® Windows® Embedded Standard 7 (WES 7), Microsoft® Windows® Embedded Standard (WES 2009)

**Memory**
CE 6.0: 1GB, Windows 7 Pro, WES 7 & WES 2009: 2GB, DDR2 SDRAM

**System Software**
CE 6.0: Microsoft® Internet Explorer 6, Microsoft® on-screen keyboard, DCWedge barcode wedge
Windows 7 Pro & WES 7: Microsoft® Internet Explorer 10, Freefloat Key on-screen keyboard, Freefloat Link wedge
WES 2009: Microsoft® Internet Explorer 8, Microsoft® on-screen keyboard, Freefloat Link wedge

**Optional Software**
Optional Remote Mastermind (ReM) remote device management

**Mass Storage**
CE 6.0: 1GB
Windows 7 Pro: 32GB, optional 4GB industrial SD secondary SSD
WES 7: 16GB, optional 4GB industrial SD secondary SSD
WES 2009: 4GB, 8GB

**Graphics Processor**
Intel® GMA 500

**Power Supply & UPS**
10 to 60 VDC isolated, Optional external converters for AC (90-240VAC) & extended range DC (60-150 VDC); Integrated Li-ION maintenance UPS with 30-min life at -20°C, charging range 0°C to +35°C

**Display**
9.7” (246 mm) XGA (1024x768) LED backlit display, 400 NIT, Optional screen blanking

**Audio**
Audio for headset, Integrated stereo speakers w/ adjustable volume control, Integrated microphone

**I/O Ports**
1x USB 2.0 powered host port, 1x USB 1.1 client port, 2x powered RS-232 COM ports, 1x CAN-bus port, 1x Headset port, DC power input & ignition control input, RF Antenna ports for WiFi (2), WWAN (1) & GPS (1)

**Storage Expansion**
User installable expansion slot supports 1GB and 4GB SD card

**Development Environment**
Honeywell SDK available for Windows® CE 6.0; Standard Windows® SDK for Windows 7 Pro, WES 7, WES 2009

**Warranty**
1 year factory warranty

**Service Plans**
Optional three- and five-year service programs offer worry-free mobile computing

**Wireless Connectivity**

**WWAN**
Optional software definable (data only) 3.75G radio with five-band UMTS/HSPA+ (800/850/900/1900/2100MHz), quadband GSM/GPRS/EDGE (850/900/1800/1900MHz) and dual-band EV-DO/CDMA (800/1900)

**WLAN**
Microsoft® Windows® CE 6.0: 802.11 a/b/g
Windows 7 Pro, WES 7 & WES 2009: 802.11 a/b/g/n

**WLAN Security**
Authentication: Support for a full range of 802.1X (EAP) types, including EAP-TLS, PEAP-MSCHAPv2, PEAP-GTC, LEAP, and EAP-F Moto Encryption: Support for Static, pre-shared, and dynamic encryption keys, 40-bit and 128-bit keys, WEP, WPA (TKIP), and WPA2 (AES) Encryption Methods

**WPAN**
Bluetooth® 2.0+EDR standard, internal antenna

**GPS**
Integrated Assisted GPS (A-GPS) with fast position acquisition and low power consumption. Included with WWAN radio
