Battery Pack Information

Charge Battery Pack
Battery packs are shipped partially charged. Fully charge the battery before initial use. To learn about accessory compatibility and battery charge times, see the user guide and quick start guide for your specific computer model. Product documentation is available for download from www.honeywellaidc.com.

Note: You can charge batteries after a partial discharge without affecting the original battery capacity.

Specifications
Design and specifications are subject to change without notice.

Product: Rechargeable Li-ion battery, Model BAT-SCN02
- Part Numbers: BAT-SCN02
- Dimensions: 54.36 x 56.19 x 15.18 mm (2.14 x 2.21 x 0.6 in)
- Weight: 62 g (2.2 oz.)
- Battery configuration: 1S1P (1 cell in series and 1 cell in parallel)
- Maximum voltage: 4.35 VDC
- Nominal voltage: 3.8 VDC
- Capacity: 2160 mAh, 8.2 Wh
- Relative humidity: 5% to 95% non-condensing
- Operating temperature: -20 °C (-4 °F) to 50 °C (122 °F)
- Storage temperature: -20 °C (-4 °F) to 50 °C (122 °F), for up to 30 days
- -20 °C (-4 °F) to 35 °C (95 °F), for up to 90 days
- Charging temperature: 5 °C (41 °F) to 40 °C (104 °F)

Product: Rechargeable Li-ion battery, Model BAT-SCN03
- Part Numbers: BAT-SCN03
- Dimensions: 54.36 x 56.19 x 15.18 mm (2.14 x 2.21 x 0.6 in)
- Weight: 45 g (1.6 oz.)
- Battery configuration: 1S1P (1 cell in series and 1 cell in parallel)
- Maximum voltage: 4.2 VDC
- Nominal voltage: 3.7 VDC
- Capacity: 1150 mAh, 4.25 Wh
- Relative humidity: 5% to 95% non-condensing
- Operating temperature: -20 °C (-4 °F) to 50 °C (122 °F)
- Storage temperature: -20 °C (-4 °F) to 50 °C (122 °F), for up to 30 days
- -20 °C (-4 °F) to 40 °C (104 °F), for up to 90 days
- -20 °C (-4 °F) to 20 °C (68 °F), for up to 1 year
- Charging temperature: 5 °C (41 °F) to 40 °C (104 °F)

Important Recommendations
To learn more about Battery Maintenance for Portable Devices, go to www.honeywellaidc.com.
- For maximum battery life, charge the battery at 20 °C (68 °F) to 25 °C (77 °F) and store at 20 °C (68 °F) with a 30-50% charge.
- Do not store the battery pack at temperatures above 60 °C (140 °F). Storage above 60 °C (140 °F) may damage the battery pack.
- Use battery pack BAT-SCN02/BAT-SCN03 in Honeywell-approved devices. Any other use of this battery pack could result in damage to the device or to the battery pack.
- Only charge your battery pack with a Honeywell-approved charger.
- Do not allow metallic conductive objects to contact battery terminals. Do not short-circuit a battery or throw it into a fire; it can explode and cause severe personal injury.
- Do not immerse batteries into, or expose them to, water or seawater.
- Do not incinerate, microwave, throw into a fire, or expose batteries to temperatures above the maximum rating.
- Do not disassemble a battery or try to open or penetrate its housing.
- Replace the battery only with another BAT-SCN02/BAT-SCN03 battery pack. This battery has been tested in accordance with applicable safety standards. Contact your Honeywell sales representative or distributor if this battery is no longer available.

**CAUTION:** Improper battery replacement or incompatible device usage may result in risk of burns, fire, explosion, or other hazard. Dispose of lithium-ion batteries according to local regulations.

**ATTENTION:** Un remplacement inadéquat de la batterie ou une utilisation incompatible de l’appareil peut présenter des risques de brulures, d’incendie, d’explosion ou d’autres dangers. Éliminez les piles lithium-ion usagées conformément aux réglementations locales.

**PRECAUTION:** Si el reemplazo inadecuado de la batería o el uso de un dispositivo incompatible pueden dar como resultado quemaduras, incendio, explosión u otros riesgos. Descarte las baterías de litio según las regulaciones locales.

**CUIDADO:** a substitución incorreta da bateria ou a uso de um dispositivo incompatível pode resultar em riscos de queimaduras, incêndio, explosão ou outros perigos. Descarte as baterias de íon de litio de acordo com as regulamentações locais.

**Attention:** В случае неправильной замены аккумулятора или использования несовместимого устройства существует опасность ожога, пожара, взрыва, а также других несчастных случаев. Утилизация литий-ионных аккумуляторов должна производиться в соответствии с местными нормативами.
